### **The Goods**

All products consigned are accepted on consignment for a 90 day term, starting the day your items are priced. After the 90 days there is a process. Please refer to the 'other things to know' Section below  
Please check our website or Facebook page for items we are accepting.

We accept items that are in demand, brand names that are in season or needed for the start of the following season.

Clothing must be freshly laundered, in excellent condition (pet hair removed and scent free if possible)

All toys and books must be in good/excellent condition with all pieces and working batteries

We take 20-40 maximum of clothing per season, per customer

Items that have a hole (usually under the arms) will be automatically donated. If there are more than five unsaleable items, we will call you to pick them up or ask if they can be donated (we have a two staff policy to go over clothing to try and catch holes or stains)

We reserve the right to refuse items deemed unsaleable

### **The Money**

40% is yours - to be paid in cash, or use as store credit

Why do we take 60%? This helps a little to pay for the tag, the staff to price it and a tiny fraction of the rent.

Pricing is at the discretion of staff. We use a list of criteria to determine how to price your item. We want your items sold so you get your money and we stay in business

Payouts exceeding \$50.00 will be E-transferred, \$1.50 will be deducted from your store credit

Outstanding payouts not claimed within one year will be the property of The Children's Marketplace

### **Our Software**

We price items using a consignment software. This software DOES NOT allow you to be notified when your items have been priced or sold. You are welcome to stop by in a few weeks, call, email or send us a message on Facebook to check the status of your account

The Children's Marketplace is not responsible for damage, theft or loss of items. We price for over 5000 consignors, and are high traffic: occasionally tags get pulled off. We try to find the item or find the owner of the item, but sometimes without a tag it's hard

We try our best to limit theft, but it can, and does happen - makes me mad too.

### **Other things to know**

Everything brought in should be no more than 3 to 5 years old. We are very cautious with equipment. If we take cribs, strollers and other equipment it should be no more than 3 years old, have no recalls and have all the parts, screws, nails, and instructions

After 90 days from when an item is priced it becomes the property of the store. This allows us to move the stock. Moving the stock means a few things - we donate it, keeping it out of the landfill is a priority. We donate to local organizations if we can, or give it away to families that come in that we know need it. Community is so IMPORTANT. Lastly, we might put it into a \$1.00 bin. We do this so we can recoup the price of the tag and staff's time pricing
